

TOURNEO CUSTOM

 handimobil **auto** products

The new Tourneo Custom offers a spacious cabin which makes it ideal as a Wheelchair Accessible Vehicle (WAV) with easy and safe access for anyone who is mobility impaired. We can adapt it according to your desires with a range of different seating configurations so it matches your requirement.

It's smart, not complicated

With its robust build and highly customizable interior, our Ford Tourneo Custom is designed to provide the ultimate flexibility for all your mobility needs. From secure wheelchair tie-down systems to versatile and easily adjustable seating arrangements, every detail has been

thoughtfully crafted to ensure safe, seamless, and comfortable transportation. Advanced technology and premium materials elevate the experience, making this WAV a perfect blend of innovation, practicality, and style, tailored to enhance your independence and freedom.

As a WAV the new Ford Tourneo Custom is perfectly accessible from a wheelchair user perspective. Automatic hatch door opener in combination with an aestically well-designed and LED illuminated platform lift makes a rear-entry into the vehicle both easy and reliable.

Using a 6-way power seat base to transfer from the wheelchair into an optimal seating position ensures a comfortable driving experience, and in combination with the ergonomically shaped E-gas system you will find yourself in perfect control of your vehicle.

TOURNEO CUSTOM
